“Lighting Sciences, Inc. - Lunch Time Facility Tour”

We will get to see first hand the equipment used for photometric testing, illuminating engineering research and development, and lighting test equipment. Lighting Sciences Inc. has spent more than thirty years building a significant record of independent photometric tests.

Lighting Sciences Inc.'s Series 6400T goniophotometer has been recognized by the Illuminating Engineering Society (IES) Progress Report Committee as “a unique and significant advancement to the art and science of lighting.”

For over 30 years Lighting Sciences Inc. has been one of the world's leading suppliers of photometric equipment for lighting manufacturers and laboratories. LSI offers integrating sphere systems used for the measurement of the total luminous output of lighting devices. High speed measurement of spectral data can also be made with an optional spectrophotometer.

Lighting Sciences Inc. is a lighting technology company with testing equipment manufacturing facilities and third-party photometric laboratories located right here in Scottsdale, Arizona.

Wednesday March 9, 2011

12:00 noon—1:00 PM

RSVP to scottw@wrightngr.com

Location:

Lighting Sciences, Inc.
